

New Smart Sensor technology

One headset manages PC and mobile calls

Voyager™ PRO UC

Intelligent communications on the go

Simply place the next generation Voyager PRO UC headset on your ear to automatically answer mobile or PC calls. With Smart Sensor technology, your Skype™ or Microsoft® Lync™ Server 2010 presence is immediately updated to show your availability and willingness to engage.

IDEAL FOR:

- Mobile professional who works anywhere just not in the office

Voyager PRO UC

Revolutionising the mobile office. Unify PC and mobile phone communications. Smart call routing will route the call to the headset if you are wearing it and to your mobile if not. Voice prompts announce remaining talk time, connection status and battery level for superior call management.

KEY FEATURES

Next generation technology

New Smart Sensor technology for a seamless and intuitive user experience

- Automatically answers calls simply by placing on your ear
- Automatically transfers calls between mobile phone and headset
- When on a mobile or PC call, softphone presence is automatically updated
- Eliminates accidental dialing by locking call button when headset is not worn

Outstanding audio quality

- Dual-mic AudioIQ² DSP for noise cancellation, delivering clear voice quality to you and your listener
- Advanced WindSmart[®] technology provides three layers of wind protection
- PC Wideband delivers heightened speech clarity, providing the best possible PC audio quality
- Integrated A2DP lets you listen to streaming media, including your favorite songs, podcasts, turn-by-turn navigation and more

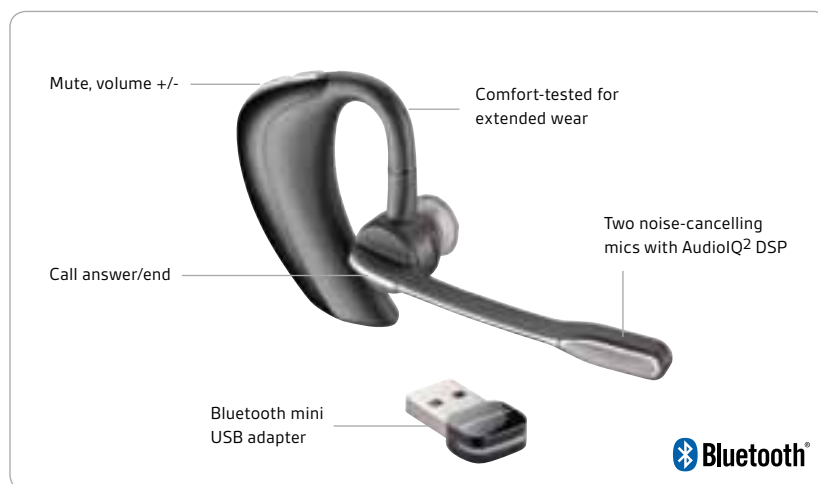

Superior call management

- Multi-device connectivity lets you manage PC and mobile phone calls from a single headset
- New Bluetooth[™] mini USB adapter can stay in your laptop port for always-ready connectivity
- Enhanced voice alerts announce remaining talk time, connection status, battery level and mute
