Group Conferencing Solutions

When it's time for your teams to collaborate on a conference call, they deserve the most life-like collaboration experience possible. For more than 25 years, companies have chosen Polycom as the #1 brand globally for conference phones with more than 5 million devices shipped. Employees count on Polycom for the best audio experience in the industry.

Verbal communication keeps information flowing throughout every organization. Whether communicating with colleagues, customers or suppliers, your teams should be focusing on the message, not the technology.

Polycom's enterprise-grade telephones are easy to use, work with your existing communications environment and are so high-fidelity it sounds like your entire team is in the same room. From the boardroom, to the desktop, or anywhere in between, Polycom voice solutions keep you connected and productive.
