

2024 HEADSET BUYERS GUIDE

What's Inside?

You will get the latest models and insider information in this year's 2024 Headset Buyers Guide. Packed full of the information you care about, but condensed into a quick-to-read and understandable guide.

New for 2023:

The smaller USB-C port is now the new standard. Most USB headsets come USB-C with an adapter for those needing USB-A. This transition will continue for 2024 and into next year.

Headset manufacturers are focused on reducing background noise with noise canceling microphones and active noise canceling in the speakers.

To help with part and chip shortages, many headsets have been re-engineered to use materials that are more readily available. This will greatly help supply chains and put headsets back in stock.

Make Your Life EASY!!!

To simplify the buying process, the staff at Headsets Direct compiled what we feel are the best headset options for a variety of applications. From our internal testing to supporting our customers, we work hard to know every headset inside out and upside down. Please find the following product details an easy way to navigate and understand the headset world.

Nothing beats the comfort, productivity benefits, and value of a great headset. Start by consulting one of our Certified Headset Experts for a great headset experience!

How would triple the talk-time ease your mind about always being charged?

Must Have for Mobile Users!

- Recharge on the go with the portable charging case with integrated docking stand for an extra 14 hours of talk time
- Simply say "answer" or "ignore" to manage incoming calls
- Four adaptive microphones and proprietary DSP work together to reduce disruptive background noise while Six layers of WindSmart® technology ensure your voice comes through clearly
- Activate Siri, Google, or Cortana with the touch of a dedicated button
- Smart sensors answer calls by simply putting on the headset and transfers calls between mobile phone and headset
- **Compatible with:**
PC, Mobile and Desk Phones with USB Connectivity

Poly Voyager 5200 UC

You never stop. Not even to take a call. Your challenge: being heard and being productive on your chosen device—smartphone, PC, tablet or desk phone. The Voyager 5200 UC headset lets you get work done on the go. Its advanced, adaptive noise cancelling with WindSmart technology reduces disruptive background noises like wind and chatter, enabling you to seamlessly transition from one environment to the next. Smart sensors automatically route and answer calls, and its comfort-tested ergonomic design feels as good at the end of the day as it does at the start. And the portable charging case with integrated docking stand keeps you up and running, ready to take the call.

Active Noise Canceling greatly improves your ability to hear callers in loud environments!

.....

Sound Like No Other!

- Three levels of Advanced Digital Hybrid Active Noise Canceling (ANC)
- Advanced multiple microphone noise canceling with Acoustic Fence technology in a discreet boom
- Works seamlessly across Computers, and Cell Phones. Add Voyager Office Base for deskphone compatibility
- Stereo sound for calls and media/music
- Dynamic Mute Alert senses and tells you when talking while muted
- **Compatible with:**
PC, Mobile and Desk Phones with USB Connectivity or with the Voyager Office Base

Poly Voyager Focus 2 UC

We couldn't build a wall around you to block out background noise, so we did the next best thing: created a "focus zone" with the new Voyager Focus 2 headset. All you hear is your call with three levels of hybrid active noise canceling (ANC). All they hear is you with our pro-grade microphones using Poly Acoustic Fence technology. The discreet microphone boom on the Voyager Focus 2 is not only ultra-noise canceling but, with its multiple microphone Acoustic Fence technology, literally creates a virtual noise-free bubble in front of your mouth. It's so good it even meets the Microsoft Teams Open Office premium microphone requirements. The focus stays on you, right where it belongs.

Desk Phone, PC and Mobile

Poly Voyager 4245

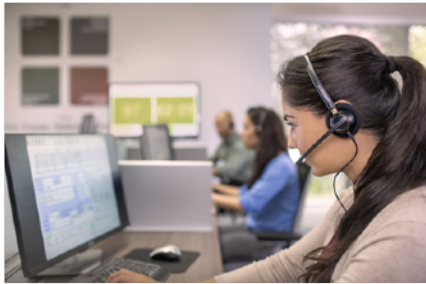

Voyager 4245 Office is a pleasure to wear—the lightest Bluetooth® headset of its kind. Everyone can move freely and collaborate in comfort, all day. Because losing connection with a customer is bad for business, Voyager 4245 has continuous battery life for unlimited talk time (using included second battery). If a battery runs low, it can be swapped out mid-call—so conversations stay on track, and customers stay happy. Three wearing options on a single device keep your teams happy too—and makes for easy ordering and stock control. And Poly topped it all off with high-quality audio, so you get a headset that delivers an all-around great experience.
